Germans Threaten Death of Hostages to Stop Hostility

Threat Follows Killing of German Colonel in Paris Subway

Vichy, Unoccupied France, Aug. 23.—(AP)—German military authorities put the lives of thousands of Frenchmen in pawn today for any new violence following the assassination of a German colonel in the Paris subway, and the Pétain government of unoccupied France followed an earlier German lead by decreeing death for communists and anarchists.

But even while the roundups of suspects continued, news reached Vichy today of a new train wreck in the unoccupied zone at the entrance to the Val d'Aunay tunnel in the Paris subway. Thirty miners were injured.

Police raids in Paris were reported to have turned from the working class districts to the swank Champs Elysees section of the eighth arrondissement.

In disclosing the fatal stabbing of a German officer in Paris Thursday, Lieut. General Ernst von Schauburg, German commandant of the city, announced that effective today all Frenchmen under arrest would be classified as hostages and "in case of a new criminal act, a number of hostages corresponding to the gravity of the act committed will be shot."

Followed 6,000 Arrests
The assassination followed the arrest of 6,000 Jews, communists and De Gaulists in Paris on Wednesday. The victim's identity was not disclosed.

The Pétain decree against communists appeared in the Official Journal today, although it was drafted Aug. 14, the same day the Germans made communist activity in the occupied zone punishable by death because of demonstrations and shootings in Paris Aug. 12.

French army or navy courts martial will handle the cases in the unoccupied area, their verdicts calling for immediate execution without possibility of appeal.

In lesser cases prison terms up to life may be ordered, and offenses involving military or public officials may be punishable merely by fines.

This would imply that dissatisfaction also exists in official ranks.

Meanwhile, Interior Minister Pierre Pucheu resumed the wholesale removal of mayors and liquidation of township administrations, nine mayors and 31 town councils being fired in the first action. Charges ranged from "insulting remarks concerning the person of Marshal Pétain" and "hostility to the work of national restoration" to simple "drunkenness."

Woman Identified As Killer's Victim Alive With Spouse

Chicago, Aug. 23.—(AP)—A puzzling case of positive yet apparently mistaken identification left police today without new clues to the identity of a young woman found slain Thursday in the Rogers Park district.

Six women identified the body yesterday as that of their friend, Mrs. Violet Brady, 27, a Chicago waitress, and said her husband, Henry E. Brady, was a soldier at Camp Forrest, Tenn.

But Chief of Detectives John L. Sullivan said he determined by telephone that Staff Sergeant Henry E. Brady's wife, Violet, was alive and working as a clerk at Camp Forrest.

Three of the six who identified the body as Mrs. Brady were officials of the waitress union of which Mrs. Brady was a member; two were her former roommates and the sixth was a waitress friend who had worked with her and had last seen her a month ago.

One clew was a pair of white shoes, size five, found on a highway near Belvidere, Ill. Miss Grace Holly, who runs a hamburger stand there, informed police that the shoes were dropped from an automobile in which two men were riding when they stopped at the stand early Thursday. There were no shoes on the body of the dead woman.

Chicago detectives brought the shoes here for examination at the crime detection laboratory and to determine if they fit the feet of the slaying victim.

HOBSON'S CHOICE

Tobias Hobson, an early English stable owner, kept horses to hire, and every customer was required to take the horse next to the door; there was no choosing. From this custom came the expression "Hobson's choice," which still is used to denote a choice without an alternative.

ISLAND LAKE

Lying in the Atlantic Ocean, off the coast of Maine, Bois Bubert Island contains a fresh water lake which contains brook trout.

Tragedy

Oakland, Calif., Aug. 23.—(AP)—A honeymoon couple, married only yesterday in Reno, was shot to death early today as they stepped across the threshold of their new home in East Oakland.

The victims were Mr. and Mrs. Robert A. Newcomb. The bridegroom, 43, was an Oakland plumbing shop owner.

Deputy Coroner Elmer Sorenson said they were shot by Sergeant James C. McDonald, R. O. T. C. instructor in an Oakland high school, a friend of the bride before her marriage.

McDonald, suffering from two bullet wounds in his chest was taken to a hospital.

Gasless Sunday in Some Localities in East Due Tomorrow

Washington, Aug. 23.—(AP)—Eastern motorists who plan long trips this week-end may have trouble buying enough gasoline to get back home. Filling stations in some localities have announced a gasless Sunday for the first time since 1918.

And a statement by Senator George (D-Ga.) indicated that pleasure car drivers' troubles may have begun. He said he was reliably informed that a lack of oil transportation would force a one-third cut in eastern motor fuel, against the present 10 per cent curtailment.

Unverified reports circulated in congressional circles that the government had called upon American oil companies to make up a pool of 100 additional deep-sea tankers to be turned over to the British.

Hear Many Tankers Sunk
Division of 50 tankers from the Atlantic coast run to serve Britain in the battle of the Atlantic precipitated the current petroleum emergency. One member of congress said he had heard from reliable source that 10 of 80 tankers acquired in the United States by the British before enactment of the lend-lease act had been sunk.

Tomorrow will be a gasless Sunday in some eastern areas, particularly in some parts of northern Virginia, by individual action of filling station operators who have announced they would lock up in order to spread their limited gasoline supplies through the remainder of August.

Meanwhile the eastern seaboard's 100,000 station operators and 10,000,000 motorists alike awaited a statement to ease the current confusion by projecting a uniform program for equitable distribution of available gasoline supplies.

Ft. Sheridan Troops Leave for War Games Early Tomorrow Morn

Fort Sheridan, Ill., Aug. 23.—(AP)—The 40th coast artillery (anti-aircraft) brigade at Fort Sheridan will leave tomorrow morning for army maneuvers in Louisiana.

The brigade's departure time, scheduled originally for Monday, was changed to avoid conflict with the 5th infantry division convoy which will go to the war games from Ft. Custer, Mich.

More than 700 trucks carrying 4,400 soldiers will leave here and return in six weeks. One convoy of 515 trucks and more than 2,750 soldiers and equipment will go through Elmhurst, Lemont, Joliet, Pontiac, Bloomington, Decatur, Centralia, Carbondale and Cairo. Overnight stops will be made at Bloomington Sunday and Centralia Monday.

A second convoy of about 250 trucks and 1,700 men will stop overnight at Rantoul Sunday and Fairfield Monday. It will pass through Kankakee, Champaign, and Mattoon among other cities.

Aftermath

Oakland, Calif., Aug. 23.—(AP)—Nelson Adam, 14, fell 35 feet out of a tree and wasn't hurt a bit. But when he started to walk away, a limb fell out of the same tree. It broke his leg.

Saux and Fox Indians Will Hold 3- Day "Pow-Wow" at Black Hawk Park

Springfield, Ill.—(AP)—Labor Day week-end visitors to Black Hawk state park near Rock Island will see a "pow-wow" by descendants of the Indians who lived a century ago on the hills and countryside of the park area more than a century ago.

Walter A. Rosenfield, state public works and building director, said arrangements had been made for fifty members of the Sauk and Fox tribes from the Tama, Iowa, reservation to appear at the park from Saturday August 30 to Monday, Sept. 1, inclusive.

The Indians will live in wicki-ups, cook their food over campfires, and perform tribal dances in much the same manner their forefathers did at their native festival grounds, now a part of the park.

The dances will be conducted in best paleface fashion, however, on a raised wooden platform, and with awards offered for the best

Best and Greatest Lee County Fair Is On; Ends Tomorrow

Everyone Attending Annual Show Agrees It's Best in Co. History

The eighth annual Lee County Fair and Horse Show opened Friday afternoon in historic Assembly park, presenting the greatest displays of livestock and agricultural products in the history of the county. Mayor William V. Slothower extended the greetings of the citizens of Dixon to the fair association and urged it to continue these annual events to not only encourage agriculture in this vicinity, but also to provide interesting and educational entertainment. He then presented Congressman Leo E. Allen of Galena, who with Mrs. Allen spent the afternoon at the fair.

Congressman Allen in brief remarks stated that events such as this were of immeasurable value to the community in which they are held, and praised the fair association officers for their efforts in providing Dixon and vicinity with an attraction of this educational value.

Attorney General George F. Barrett of Chicago officially opened the fair which is in its biggest year. He brought the personal greetings of Governor Dwight H. Green, who, the speaker said, had been detained in Springfield by official business, but who will visit Dixon on September 2nd. This district of Illinois, the speaker said, is fortunate in having such representatives in Congress as Congressman Leo Allen and added that the middle west, at the close of the present war would not only furnish the leaders who would solve the nation's problems, but that this same section would also provide the necessities for suffering humanity when the world war is over.

A novelty feature of the afternoon was the judging of the canine curiosities which were entered by children of Dixon and vicinity. Prof. Canine, in the person

Mexico Closes 15 German Consulates

Mexico City, Aug. 23.—(AP)—The Mexican government has ordered 15 German consulates throughout Mexico closed by September 1 and has called home all Mexican consuls in German-occupied portions of Europe.

The foreign office order last night was accompanied by a bluntly-worded statement by President Manuel Avila Camacho that his government "does not recognize, nor for any motive can recognize, the state of things created in Europe by violence."

The action was based on what Mexico regarded as an unfriendly act by the Germans — an order from Berlin to withdraw Mexican consular representatives from Paris and six other German-controlled cities.

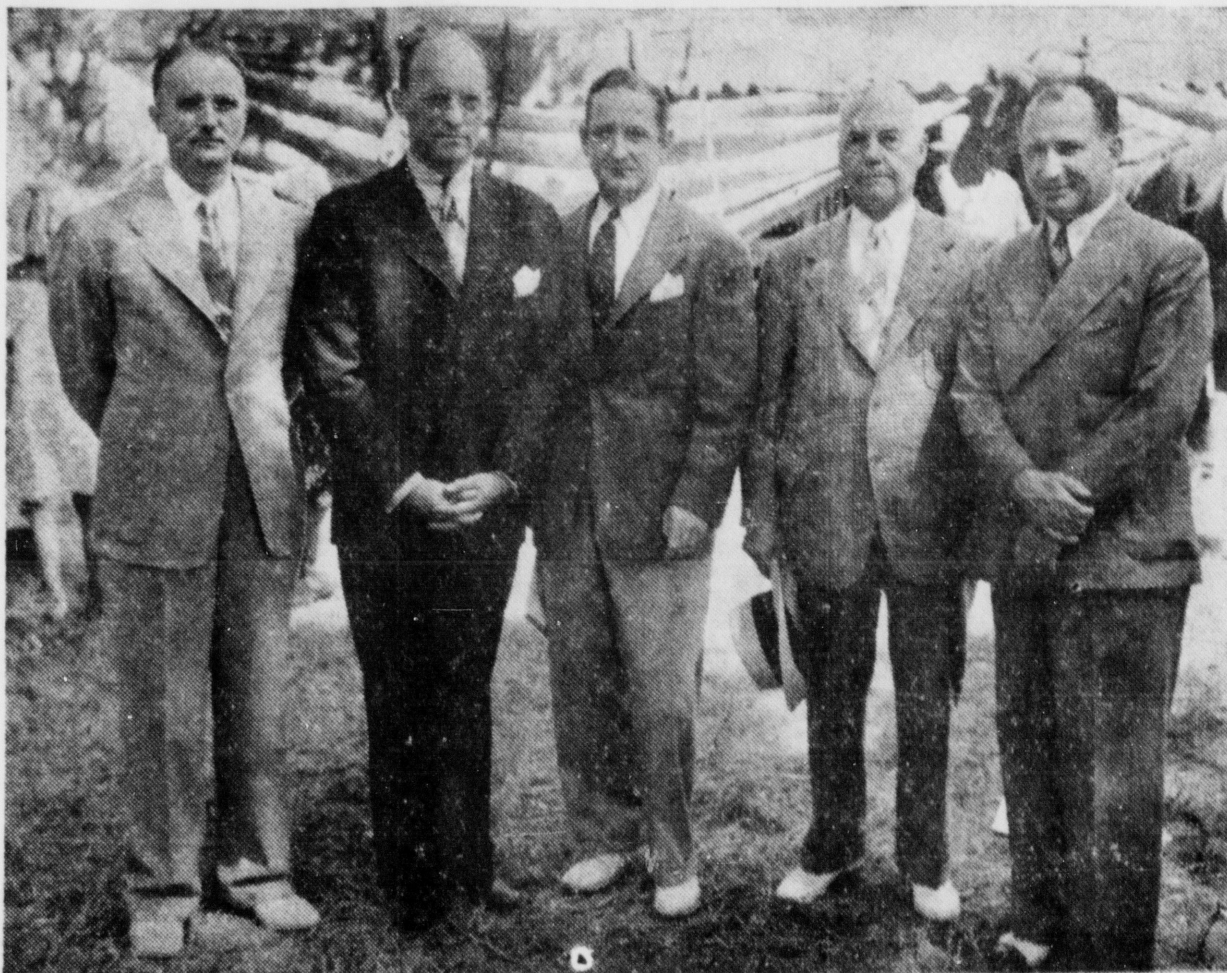

The Mexican counter-move, similar to steps taken by the United States and Cuba, added to the strain on Mexican-German relations caused last April when the government seized 12 German and Italian vessels refuged in Mexican ports.

Injuries Suffered in Fall in Prison Fatal

Joliet, Ill., Aug. 23.—(AP)—Le Roy Williams, 43, a negro serving a sentence for the murder of a Chicago woman, died in the old prison hospital today from injuries suffered in a fall from a cell-house gallery.

Warden James Doody said Williams was pushed from the gallery of his cellmate, Clifton Jones, 41, a negro committed from St. Clair county for robbery. The men had been quarreling, the warden said.

Public Officials Attend Lee County Fair

Left to right—Representative Dennis J. Collins of DeKalb; Attorney General George F. Barrett of Chicago; Dr. Grover Moss, president of the Lee Co. Fair Assn.; Dr. Z. W. Moss, treasurer of the association; and Congressman Leo E. Allen of Galena, pose for the Telegraph's cameraman at Friday's afternoon's opening of the annual fair and horse show at Assembly Park, Dixon. Other pictures of the fair, which will continue through Sunday evening, will be found on page 5. Stories of fair in adjoining column and on pages 3 and 5.

Find \$62,000 Money, Jewels, Securities in Caldwell's Name

Ousted \$125 - Per - Week Union Agent Held for Questioning

Chicago, Aug. 23.—(AP)—Max Caldwell, ousted \$125-a-week union business agent, was held today without charge for questioning by state's attorney's investigators who found in a safe deposit box more than \$62,000 in cash, securities and jewelry in the name of Caldwell and his wife.

The box in a Michigan avenue hotel was drilled open last night by investigators headed by William B. Crawford, assistant state's attorney, who said Caldwell had registered at the hotel Tuesday under the false name of Roy Stewart of Gary, Ind.

Crawford said the box might be one of several Caldwell had rented. Caldwell, who the prosecutor said, "was broke a little more than four years ago," has been removed as business agent of a local of the Retail Clerks' International Protective Association after a revolt by some members who sued for an accounting of union funds, estimated at \$910,000.

Francis Heiser, attorney for the insurgent clerks, said he would ask the court to impound the property in the box and added that in view of Caldwell's statement that his only income was his \$125 union salary he would have to prove the seized assets did not belong to the union.

Prosecutor's Picture

Prosecutor Crawford drew this picture of Caldwell, his background and his union activities:

"Here we have a man, a one-time bootlegger and a companion of gangsters who was broke a little more than four years ago. With the assistance of his father-in-law, Charles P. Willis, a labor leader, who has been ousted from the executive committee of the Chicago Federation of Labor, he obtained control of the clerks' local in 1937. "Working clerks, more than 7,000 of them, were muscled into this union. They paid \$2 a month dues, \$10 or more in initiation fees; they paid fines and bought tickets for a hospital plan that helped none of them. "They were browbeaten; many of them asserted they were slugged and shoved by Caldwell agents when they asked questions. They were never even told what contracts they had with their stores. "A group of these low paid, exploited workers revolted in June and Caldwell was kicked out. Where were the assets of the union? It was estimated that Caldwell and his crew collected \$910,000 in four years. Only \$62 has been found in union accounts and the books have disappeared."

Manufacturers of Planes for Uncle Sam Lose Heavily

Los Angeles, Aug. 23.—(AP)—It is costing two southern California aircraft manufacturers from half a million dollars a year to nearly eight times that much to build airplanes for the government, they told a United States senate committee investigating the national defense program.

On the army's new giant four-motored bomber, the B-19, Douglas Aircraft Corp. has written off a loss of \$2,570,122, Donald W. Douglas, president, testified.

The big plane so far has cost \$3,970,685, Douglas said yesterday, and the government is to pay only \$1,142,651 under its contract. A committee member asked if he expected to receive any further payments for the bomber, and Douglas replied, "I'm afraid not."

Douglas placed his company's loss on government contracts at \$1,840,882 for the first six months of this year, and said that for 1940 it was \$1,142,651.

Changes Expensive
The loss of Northrop Aircraft, Inc., on government business during the last year was estimated by Gage H. Irving, vice president, at approximately half a million dollars. He said it was questionable whether it ever would break even on government contracts.

J. H. Kindeberger, president of North American Aviation, Inc., said gross profits on government planes have run as high as 30 per cent, but asserted the company has suffered a 20 per cent loss on its bomber contracts and estimated profits on government business as a whole at 10 per cent.

Declaring changes asked by the army and navy cause delays in plane construction, Douglas said they also make accurate cost estimates difficult.

"That is why we often take a very bad beating," he added. "The industry as a whole has lost money on experimental business."

Unwillingness of A. F. L. and C. I. O. aircraft union heads to meet together with manufacturers has blocked efforts toward wage stabilization, Douglas and Kindeberger told the committee.

Installment Buying Regulations Become Effective Sept. 1st

Strict Rules Laid Down by Federal Reserve Board Distributed

Washington, Aug. 23.—(AP)—Strict government regulations for installment buying, distributed today to take effect September 1, affect not only a wide range of luxuries but many items long considered in the necessity class.

The new rules promulgated by the Federal Reserve Board apply to pleasure cars and 23 other items such as musical instruments, home repair loans and other credit facilities. The general idea is to conserve materials for defense and prevent inflation.

Beginning the first of the month merchants, generally speaking, may not lend money without a down payment. They cannot give term credit without a down payment or permit installments to run more than 18 months.

The order, the board said, is merely a start on credit regulations; changes will be made as necessity requires.

The restrictions include: One-third minimum down payment and maximum of 18 months to pay the balance on new and

Former U. S. Judge Freed Second Time

Philadelphia, Aug. 23.—(AP)—Failure of a second Federal jury to reach a verdict on government charges retired U. S. Circuit Court Judge J. Warren Davis said justice brought an announcement from Prosecutor Walter H. Gahagan, Jr., that he would request a third trial.

"We are not through with this case yet," declared Gahagan as the deadlocked jury of nine men and three women was discharged late yesterday after 12 hours of deliberation.

The 74-year-old Davis and former bankruptcy referee Morgan S. Kaufman, tried jointly on charges of conspiracy to obstruct justice and defraud the United States government, received the jury report calmly.

The government during the four-week trial accused Davis of receiving \$27,500 in unsecured loans from former movie magnate William Fox in return for favorable decisions on bankruptcy cases in 1936 when the jurist was a member of the Third Circuit Court of Appeals.

Mr. Daab, Banker and Restaurateur, Loses Confidence in Confidence Men

Springfield, Ill.—(AP)—Fred C. Daab, who is president of the First National bank of Smithton and operates a restaurant-tavern in the St. Clair county village, simply has no confidence in confidence men.

Daab came to Springfield earlier this week and complained to federal authorities that two strangers were hanging around his cafe back home, trying to sell him \$10,000 worth of counterfeit money.

"They came to my restaurant on June 18th," Daab related to Lauren P. Jackson, government secret service agent here. "They said they wanted to sell me a burglar alarm for the bank. I told them I already had one.

Leningrad Told to "Dig Self in" by Red Marshal

The War Today!

By DEWITT MACKENZIE
(Telegraph Special Service)

The Far Eastern tension seems to be a bit easier—not because Japan loves America and Britain the more but because she likes much less the dangerous position she is in, both economically and militarily.

Any easement is, of course, a good easement, though it would be a mistake to conclude that Nippon has had any change of heart about territorial expansion or is impelled by anything else than caution. That is to say, it's a good time for seekers after peace to knock wood.

An indication of Japan's canniness is before me in the form of a cable stating that Japan Newsweek, the only remaining American-owned periodical, has received a foreign ministry permit to make a normal withdrawal of funds for carrying on the publication. So far as appears, this is the only American firm in Japan thusfar exempted from the order freezing the funds of United States citizens.

Now the point of all this is that Japan Newsweek has been suppressed several times—and as recently as last week—for printing anti-axis editorials. The plain inference must be that the Japanese want this anti-axis paper to keep publishing, and thus to make their axis affiliation less pronounced. You might call it a small gesture of appeasement toward Washington.

Quite apart from this magazine incident, however, there have been many signs that Nippon was driving with her foot on the brake. The reasons aren't hard to find, and may be set down like this:

1. Fear of involvement in war with the United States and Britain, especially the U. S. A.

2. Growing anxiety over the possibility that if war should come, Russia would stand with Uncle Sam and John Bull. That's no small item, for the Red army in Siberia is said to be powerful, totaling some million well-equipped and highly trained men. As opposed to this huge force, the Japanese are said to have about 500,000 men on the Manchukuoan frontier.

Moreover the bolsheviks are reported to have 100 submarines and 110 speedboats at Vladivostok, and a big fleet of warplanes along the seaboard. Because of her vulnerability, Japan is fearful of bombardment from the air, and in this connection Lucien Zacharoff, aeronautics authority, states in the September issue of the magazine "Aviation" that Nippon's "air industry is woefully weak and her air force is of low offensive strength."

3. The fact that Japan is bleeding herself white economically in pursuing the endless Chinese war. Incidentally, a little item from Chungking in today's news notes Generalissimo Chiang Kai-Shek as predicting that the conflict with Japan will end next year in China's favor.

4. The economic sanctions imposed by America in the matter of essential supplies, without which the little island empire cannot conduct normal affairs, much less continue to make war.

5. The heavy curtailment of Japan's huge export trade to America, including her all-important silk commerce, thus increasing her economic straits.

North Philadelphia Industrial Center Swept by Bad Fire

Philadelphia, Aug. 23.—(AP)—A disastrous fire swept the Joseph H. Sykes lumberyard in North Philadelphia's industrial center early today, destroying thousands of dollars worth of lumber destined for defense housing projects and damaging or destroying four other plants and an equal number of homes.

At least 16 firemen were injured, none seriously, in a four-hour battle that brought the blaze under control.

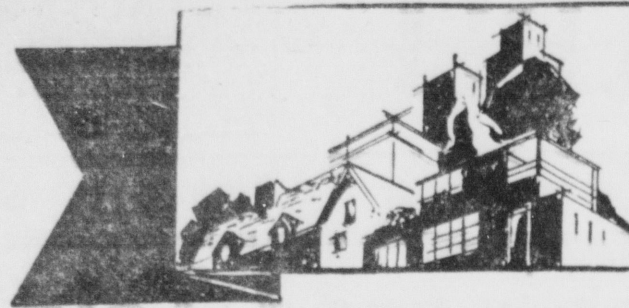

Joseph H. Sykes, owner of the lumber yard, estimated his loss at \$100,000. No estimate of the damage to the other buildings was immediately available, nor was the cause of the five-alarm fire determined.

Spreading rapidly, the flames swept through the adjoining one-story brick office building of the Counties Contracting & Construction Co., and damaged 13 air compressors, trucks and other equipment in the storage yard.

Then leaping a street fronting the lumberyard, the blaze damaged the plants of the King Bedding Company, the two-story brick mill-work plant of the C. C. Coolbaugh & Son Co., and the machine shop of H. Belfield & Co.

A government inspector went back to Smithton with Daab, but no trace of the salesmen was found. Daab looked at the St. Louis police department and government rogue's gallery, but was unable to identify any of the pictures as those of his visitors.

Federal investigators are still looking for Daab's annoyers.

Building Improvements

SMALL HOMES • STORES • APARTMENTS • MODERNIZATION

by PAUL T. HAAGEN, A.I.A.

Sweating of Concrete Wall

Moisture on inside surfaces of concrete walls and floors, is caused by condensation. Similar conditions occur on stone and other masonry; they may be particularly bad on corrugated metal siding and roofs.

Amount of condensation varies with temperature of wall or floor, with room temperature, humidity and flow of air currents. In a room containing warm, moist air, condensation may occur if the inner wall or floor surfaces are cooler than the air.

How To Prevent Condensation

Condensation may be prevented in two ways: By insulation; by proper ventilation. Where a specific room temperature is not required, it may be varied to correct the trouble.

Insulation helps to keep walls or floors at room temperature, thus eliminating cold surfaces.

The air space in furred and plastered concrete masonry walls usually provides enough insulation to maintain the temperature of inside wall surfaces above the point at which moisture will condense on them.

Ventilation for Extreme Cases

In extreme cases, ventilation should be provided to remove moisture from the room as fast as it is formed. The number of air changes required depends on rate of evaporation and room temperature. The higher the temperature of the air, the greater its capacity to hold water, and the less frequently it will be necessary to change the air.

Since it may not be economical

Summer Cottages

There are so many inland lakes, rivers and camping grounds easily reached near to the larger city centers, that people are finding an inexpensive but comfortable recreation cottage is a boon to all the family which pays dividends in health as well as satisfaction.

If you are interested in a summer place where you and your family may make away for the week end or needed vacation, be sure that you have the cottage comfortably and conveniently when you build it.

Too many vacations have been ruined when the long anticipated vacation was spoiled by a cottage that was just a little better than nothing with poor beds, bad sanitation, no running water, no light, no cooking facilities and no screens.

When you start to plan your recreation home, make it convenient for the entire family and thus they will not want to leave it for the greater comforts of home.

Today running water is possible at little cost. Most locations have electricity near, and a small pressure system with a shallow well will provide the required water supply.

Have good beds or built-in bunks, plenty of light and ventilation, electricity if possible, a shower and other necessary sanitary provisions. These are so easily had now and are not costly.

Build the cottage tight and waterproof. Many a camper has been flooded out of his supposedly comfortable quarters by a leaking roof. Screen all doors and windows as well as the porch.

A porch will be a much needed and used part of your holiday home. Have wide overhanging eaves to give shade in the daytime and to keep the rain from beating in at the windows and onto the porch.

A circulating fireplace will be welcome on damp and chilly days and will permit the use of the cottage during the colder days of spring and fall, two of the most enjoyable seasons for week ending.

SCREENS

Insect protection by screening doors and windows has made rapid progress in the last few years. Many homes have the lower half of the window screened, others have full length screens over the entire window opening. Of course the latter method is to be preferred as it permits the lowering of the upper half of a double hung window and gives better ventilation in the room.

Screens are no longer unattractive in material or design. Steel, bronze, copper, aluminum and monel metal are the raw materials from which screens are fabricated.

There are sliding screens, stationary screens and the rolling screens.

The rolling screens operate on a roller and slide in a side guide. The roller is built into the head of the window and when the screen is not in use is simply rolled up out of the way.

Modernization--

MANY THINGS TO CONSIDER

Dear Mr. Haagen:

We are looking at an old house with the thought of buying it and modernizing it. Is this a sensible thing to do, and will the cost be relatively more than building a new home?

Yours truly,
Mrs. C. A. W.

There are many old houses that might be modernized to advantage, but before buying one of the older houses, you ought to consider the neighborhood and investigate if it is on the down grade and if the houses there are in good or run down condition. Then think of your old house modernized, and what would be the investment situation after you are through. Obsolescence and deterioration of a neighborhood play a mighty important part in the value of a property. Transportation, churches and schools should be considered and the availability of a good shopping center, because over a period of years the necessary adjuncts to a neighborhood may change for the worse.

It is possible to take many an old house, modernize it and bring it up to date and have a better home for less money than if you were to build a new home. Some of the older houses have good floor plans that are well built and with the judicious use of funds will remodel into a very desirable home. The sound construction of the house is an important point to consider.

In past years most houses had many small rooms and it may be advisable when modernizing an old house to remove some of these partitions and throw two rooms into one. On the other hand, oftentimes bedrooms were large and there were not enough baths and closets and so by reducing the size of the larger bedroom, extra baths and closets may be included in the remodeling.

The older the house, usually the better the design, and by all means keep the outside of the building free of gingerbread work and eliminate all the frills. Modernization costs are usually higher than when building a new house, but if the older property can be modernized at a relatively small cost and the property value of the older house is not too high, a better house may be had and a more livable one for less money than building a new house.

Dear Mr. Haagen:

Is it good judgment to build now when building costs seem so high? We would like to own our home and prefer to build a new one rather than remodel an old one.

Yours truly,
Mrs. A. C. T.

It has been stated that you get more today for the money expended in a new house than in former years, and it is sometimes cheaper to build a new house than remodel an old one! Certainly it is more desirable to have a fresh, clean new home built to your own requirements.

Building costs are higher in certain localities and lower in other sections. The relative costs of a new house over the remodeling of an old one can only be determined by a local builder.

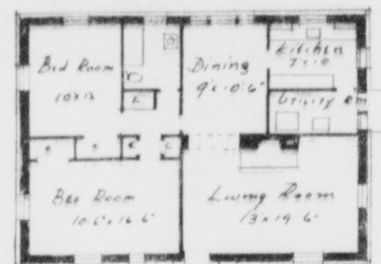

In building a new home you have the advantage of choosing your own building site, the neighborhood, and building your own home to meet the exact site and your family's demands.

The building of a house entails considerable thought and care, but after the few months taken

ALL ON ONE FLOOR

up in the building you will probably have more satisfaction and pleasure in owning a home built to your own measure regardless of cost.

CHIMNEYS

Vital Construction Points

Dear Mr. Haagen:

We have been advised to line the chimney in our new house with a flue lining. Is this necessary?

Mrs. B. M. T.

Yes, chimneys are fire hazards and a poorly built chimney can be a source of much trouble in a house. A flue lining reduces that hazard.

A chimney should not be used as a prop for the house construction and certainly no wood framing timbers should be built into the masonry of the chimney.

Chimneys will settle, and when they do joints open up in the brickwork. Then fire is liable to creep through the joints and set the timbers on fire. A flue lining is a further protection.

FIREPROOF SHINGLES

When 25 per cent of all residential fires start on the roof, it is of prime importance to eliminate that danger. By covering the old roof with fireproof shingles, the home owner can assure himself of fire protection from roof sources as long as the house stands. Fireproof shingles are available in a great variety of styles and colors to match any architectural design. They add to the beauty of the home and add a worthwhile protection.

CHANGE CELLAR INTO A PLAY ROOM

You can transform a dark and dusty basement into a usable, livable space as a recreation room, by utilizing insulating board, which is quite inexpensive, for remodeling and decorating aids.

With a few sheets of this material, the partitions may be quickly and easily created and the ceiling finished with the same material to complete the room.

YOUR NEW HOME

The surest way to build an up-to-date home is to include in its construction all the necessary and modern gadgets such as insulation, air conditioning, modern plumbing, well devised kitchen, plenty of electrical outlets for appliances, etc. These modern materials and equipment and methods are not extras but simply replace the materials you would otherwise have to buy in using the older type of appliances and methods.

It seems to be the best practice in designing the modern house that a large living room be provided. Many people do not need nor want a dining room, but they are anxious to have a place in or near the kitchen where meals may be served, possibly a kitchenette close by. In either case, the dining room so provided must be attractive and charming. This can be worked out with a little ingenuity.

It is needless to say that the living room should be as large as possible. The bedrooms need not

be large, and the less hall space there is, the better.

There should be one good-sized bedroom.

In houses of two stories, it is

advisable to have a closet and a

lavatory on the first floor, and the

full bath on the second floor.

AMPLE CLOSET SPACE

Very few houses have too many closets; on the contrary, most people find there are too few to accommodate the needs of the household. But there are spaces and locations in every house, practically, where a closet can be installed. The space under the stairway may be utilized for this purpose; they may be built in to the room in the form of cabinets or corners may be turned into closets and the irregular arrangement made a decorative feature of the room.

A new emergency battery for starting stalled automobiles has extra voltage and extra long cables for use from a service truck.

Conditioned Air Now In Demand

The air conditioning of homes seems to be a great potential market for the future. Air conditioning equipment to properly control both temperature and humidity the year round will eventually be considered as essential as a central heating system or a bathroom.

Air conditioning of the private home will not only bring comfort in the very warmest weather but is an aid to health. A third recognized attribute is the better preservation of the furniture which is often damaged by the lack of or the over abundance of moisture in the air.

Comfort in summer is the most readily appreciated and the factor of improved health that should eventually bring air conditioning from a luxury classification to that of a necessity if often overlooked.

With air conditioning there is less susceptibility of annoying winter colds and persons suffering from asthma and hay fever find air conditioning a great help.

There are two general types of air conditioning installations—the central station system and the unit conditioner. In the former, a central cooling plant in the basement forces properly regulated air through ducts to the various rooms, or else pumps a refrigerant to cooling and humidifying units located at certain points. These same units are in most cases adaptable for humidifying and heating in winter, by connections with the steam or hot water lines.

Unit conditioners are an entity in themselves, requiring only water and drain connections. They may contain a small refrigerating compressor, or they may be simply an air washer that cools, cleanses and controls the humidity by a spraying method.

Seventy-five new airports have been approved for the nation's system of defense and civil landing fields since Jan. 1, as compared with only 51 added during 1940.

VALVES CAUSE LOW PRESSURE

When you can get no water pressure on the second or third floors of a building, people sometimes blame the city waterworks when in reality the trouble is caused by leaking faucets and worn out float valves in closet combination. There is also to be considered the waste of water when the plumbing is allowed to become defective.

NEW KALSOMINE

A recently developed kalsomine is said to be self-sizing. Thus, a single coat is sufficient to produce a smooth, hard, non-rubbing surface which is washable with soap and water.

Wilhelm Cottage Gets Addition

Modernization in the form of the installation of a new water system, a new basement, and addition has taken place at the Wilhelm cottage located above the Rock on the Rock river. Lester Wilhelm, Dixon National Bank, owner of the cottage, said that the new addition was constructed over a new basement recently excavated to facilitate the installation of a new water system.

Plywood paneling was used throughout the new addition to give the interior a neat appearing finish.

Mr. Wilhelm, like many others have done, came to HOME LUMBER for quality supplies to assure a satisfactory job.

Wullbrandt's Have New Front Porch

R. F. Wullbrandt, 218 East Everett street, are now the proud owners of a brand new front porch.

Murray E. Wentling, local contractor, completed the job this week and as he has done on many other jobs in the past, he came to HOME LUMBER for all supplies to assure satisfactory service.

ODD LOTS

STILL EASY TO PAY! You've been reading a lot about curtailment of installment buying lately, but we want you to know that our liberal time-payment plan for remodeling, re-roofing or new building is still very much in effect.

DON'T SHOOT!

A Nebraska editor received a poem from a lady writer entitled, "Will You Miss Me, Darling?" The editor returned it, saying: "If he does, he should never be trusted with firearms again."

CHECK UP NOW!

Your heating plant deteriorates more in summer than in winter. Right now is the time for a "check-up" on it, your roof and the rest of your home that you expect to keep you warm and dry this winter.

S A DAY

If you can pay a dollar a day for shelter, we'll build you a completely new and modern five-room house.

OR POKER GAME!

About the only place a man doesn't like to see smiling, cheerful faces around him when things go wrong is on the golf course.

Burkett School Is Remodeled

HOME LUMBER figures in the "Back to School" program with their quality building supplies being used in the extensive remodeling and general repair recently completed at the Burkett school, on the Franklin Grove road.

Included in the remodeling was the installation of CELO-TEX ceiling and sidewalls.

Other HOME LUMBER supplies were ordered for making the general repairs.

Lester Spencer Gets New Porch

Included in the week's building activity is the new front porch at the home of Lester Spencer, 805 Second street.

The new modernization has the Spencer's all set for any kind of weather, for the porch has been screened in for the remainder of the summer and can easily be transformed into comfortable living quarters for winter, as things are all set for installation of storm windows.

This ideal set-up is HOME LUMBER's specialty and Mr. Spencer came to us for the supplies. If you are interested in comfortable porch living all the year 'round, just phone 57 and we'll see that you get it!

Here's Some After Vacation Suggestions

Vacation season's about over... how about making some of those day-dreams come true and fix up your home as you'd like it? Our plans, materials and monthly payment plan are easy on your pocketbook.

For instance, how about looking ahead to winter and getting started on a "rumpus room" to give you a place to enjoy those idle hours... the attic or basement can be transformed into a "palace of pleasure" at a nominal cost.

How about putting in those storm windows that you didn't get around to ordering last winter to get set with your home defense against those cold, icy drafts...

How about painting some of those shabby looking floors and that dingy appearing woodwork... you are going to spend a lot of hours inside and consequently looking at them!

If any of these ideas strike your fancy, just call 57 and we'll get started on them right away!

HOUSES CAN BE FLATTERED TOO!

Dorothy Doyle, John McGrath, Wed in Sterling

Miss Dorothy Jane Doyle, younger daughter of John F. Doyle of Sterling, formerly of this city, and John William McGrath, elder son of the Frank McGraths of West Sixth street, Sterling, exchanged marriage vows in nuptial high mass at 8 o'clock this morning at St. Mary's Catholic church in Sterling. The Rt. Rev. Msgr. A. J. Burns celebrated the mass in the presence of about 75 guests from Dixon, Sterling, Chicago, Glen Ellyn, and Freeport.

Bouquets of white gladioli decorated the altars for this morning's wedding.

The bride, who was given in marriage by her father, was dressed in a princess gown of white satin, with a sweetheart neckline and a short train. A row of tiny covered buttons fastened the bodice in back, and lace inserts trimmed the long sleeves and the train. Her fingertip veil of double, hand-rolled illusion, was caught to her hair with orange blossoms. Her pearl necklace was the bridegroom's gift, and she carried white gladioli in an arm bouquet.

Miss Gwendolyn Conlon of Sterling was maid of honor for her cousin. Her rose satin gown was designed with a tiered skirt. Her blusher veil of blue illusion was gathered into a bandeau of rose-colored flowers, and she wore blue lace mitts. Mixed flowers formed her colonial bouquet.

The flower girl was Mary Judith Rink of Dixon, little three-year-old niece of the bride. A blue taffeta sash trimmed her dress of white flowered organza over blue taffeta. A wreath of blue forget-me-nots held her white blusher veil in place, and she carried a small colonial bouquet.

Ned McGrath of Sterling was his brother's best man. Ushers were John Doyle, Jr., the bride's brother, and John Ferris, Mrs. William Rink of this city.

DOLORES GILLEN, RADIO ACTRESS OF NEW YORK CITY, VISITS HER BROTHER, HERE

Miss Dolores Gillen, accomplished young radio actress of New York City whose little-boy characterizations as six-year-old Peter Alden in "Against the Storm," and as Barry Brooks in "Girl Interne," current serials heard five times a week over NBC and CBS networks respectively, left yesterday morning for Chicago, after an overnight visit here with her brother, Joe Gillen of 310 Everett street.

Miss Gillen, (in private life, she's Mrs. Vincent P. Downey, having become the bride of the New York attorney a year ago in June), is a diminutive and personable young woman in her late 20's, with a pair of dark brown eyes, soft brown hair, and a charming smile that is quite infectious, reached Dixon Thursday evening with her mother, Mrs. Mary E. Gillen of Clinton, Ill., for a brief visit with her brother on a hurried vacation from studio work in the east.

This fall, Miss Gillen will be assigned to a dramatic role as regular guest star on Kate Smith's Hour, during which she has been heard on several occasions. During the past year, she has appeared with Boris Karlof in "Inner Sanctum", and with Paul Lukas, Joan Bennett, Raymond Massey, Henry Hall, Ethel Waters, the colored singing star of "Cabin in the Sky," Helen Menken, and a number of other prominent stars of the screen and radio.

In 1935, she was called to Hollywood to appear on Bing Crosby's Woodbury program. After a week end visit with radio friends in Chicago, where a round of parties will be given in her honor, Miss Gillen plans to leave for the east again Monday morning.

the bride's sister, was dressed in black crepe with black accessories. Mrs. McGrath, mother of the bridegroom, was wearing beige crepe with brown accessories. White gladioli florets formed their shoulder corsages.

A wedding breakfast for 35 guests was served at the Lincoln hotel. Pink tapers, and a three-tiered cake topped with a miniature bridal couple, decorated the table.

After a week's wedding trip, the couple will be at home at 807 West Fourth street, Sterling. For traveling, the new Mrs. McGrath wore a blue polka dot dress with a navy redingote and navy accessories.

Mrs. McGrath was graduated from Dixon high school in 1939, and has been employed in Sterling. The bridegroom, a graduate of Sterling Community high school with the class of '38, is with Lawrence Brothers' factory at Sterling.

Out of town guests attending this morning's ceremony included Mr. and Mrs. William Rink and children Mary Judith and William. Charles Doyle, Mr. and Mrs. Paul Crabtree, Miss Anna Marie and Paul Crabtree, Jr., Mr. and Mrs. William Love and children, Mr. and Mrs. M. E. McMahon, and Joseph and William Barry.

CALIFORNIA GUESTS Mr. and Mrs. John Nagel of Woosung are entertaining their daughter, Sister Mary Regeria, and a companion, Sister Mary Cassina, of Glendale, Calif. Sister Regeria teaches at Incarnation convent in Glendale.

Announcement was made today by Mr. and Mrs. Robert Moore of the approaching marriage of their eldest daughter, Margaret, to Alfred Engelburger of Elizabeth, N. J. The date for the wedding has not yet been revealed.

Both Miss Moore, who was graduated from Dixon high school with the class of '31, and her fiancé are employed by Universal Studios in St. Paul.

EASTERN VACATION Two Dixon teachers, the Misses Mercedes Moore and Mary Trombold, left today on a nine-day vacation trip through the east. Included on their itinerary are Washington, D. C., Philadelphia, Atlantic City, New York City, and Niagara Falls. In Washington they will be the guests of friends.

POLO'S LUTHERAN CHURCH IS TO BE SETTING FOR WARD-GRAEHLING BRIDAL

Palms will bank the altar of the Lutheran church of Polo and make a background for large baskets of white gladioli, when Miss Imadel Louise Graehling, daughter of the late Mr. and Mrs. G. A. Graehling of Polo, and Maurice Leslie Ward, son of the C. A. Wards of Rock Falls, exchange nuptial vows at 4 o'clock this afternoon. The single ring ceremony will be read by the Rev. Carl D. Kammeyer of Washington, Ill., assisted by the Rev. Martin Kabele, pastor of the Polo church.

Ivory tapers will be lighted in two pairs of tall candelabra at the altar and in the windows of the church. White gladioli florets and white ribbons will mark the pew ends, and there will be baskets of gladioli at the church doors. Mr. and Mrs. Harold Emmert of Dixon arranged the green and white nuptial setting.

While the guests assemble, Mrs. Frank Hammer, organist, will present a half-hour recital of nuptial selections, including "Thou Sublime Sweet Evening Star," from Wagner's "Tannhauser," "Salord D'Amour," selections from "Tales of Hoffman," "Meditation from Thais," "Liebestraum," and "Romance." Robert Hedrick is to be soloist and will sing three selections, "The Sweetest Story Ever Told," "Ich Liebe Dich," and "My Heart at Thy Sweet Voice."

This afternoon's bride has chosen her sister, Mrs. Leslie J. Smith, as her matron of honor, and her bridesmaids will be the Misses Beverly McBride of Dixon and Marian Sturtz of Rock Island, cousins of the bridegroom. Little Marilyn Iske is to be her cousin's flower girl.

Elwyn Ward is coming from Rockford to be his brother's best man. Ushering the guests to their places will be Wayne Eldred of Sterling, a cousin of the bridegroom, George Davis, Jr. of Sterling, Curtis Taylor of Freeport, and Vincent Olson of Lanark.

The diminutive bride will be wearing white marquisette, designed with a short train, and a fingertip veil. Glanella and stephanotis will form her cascade bouquet. Leslie James Smith will give his sister-in-law in marriage.

Mrs. Smith, as matron of honor, will be dressed in delphinium blue marquisette, and will carry Picardy gladioli. Dusty pink marquisette fashion the bridesmaids' gowns, and they will carry blue gladioli. The flower girl's long full dress of blue organza is embroidered in tiny pink rosebuds.

A reception will be held at the White Pines state park lodge at 6:30 o'clock for 30 guests, including the bridal party and a few members of the immediate families of the bride pair. A wedding dinner will be served in the screened veranda, which will be decorated with baskets of white gladioli.

When the couple leave later this evening on a three weeks' wedding trip, the bride will be wearing a jacket frock of brown and white crepe, with matching accessories. An orchid will be pinned to the shoulder of her traveling costume.

Miss Graehling was graduated from Polo Community high school and Carthage college. She is a member of Chi Delta Kappa sorority and was English and biology instructor in Seaton Community high school for four years.

Mr. Ward is a graduate of Rock Falls Community high school, Carthage college and the university of Illinois. He has been employed at the DuPont experimental station in Wilmington, Del., as research chemist, and expects to return there next summer, after completing work for his doctor's degree in organic chemistry at the University of Illinois.

Mr. and Mrs. John A. Wagner of Ashton attended the horse show yesterday afternoon and evening.

Floral and Domestic Arts Divisions of Lee County Fair Grow Bigger, Better

Another colorful and successful chapter is being added to Departments I and J (floriculture and domestic arts to you) of the annual Lee County Fair and Horse Show, being held here in Assembly park this week end. The event, favored by sound planning and pleasant weather—a hard combination to beat in the fair business—got off to a brilliant start yesterday, and is expected to attract huge crowds today and tomorrow.

One doesn't have to mix long in the crowds at the huge tent housing such eye-catching exhibits as multi-hued flowers, tempting culinary displays, and choice bits of needlework to learn that they are made up of well-balanced proportions of both city and rural folk. Perhaps it is because about four of every five persons living in Lee county either have direct farm connections or are just one generation removed from a background.

The display of flower arrangements is delightful, and shows what can be done with a few garden blooms by hands which have the ability to arrange flowers to their best advantage. Commercial exhibits from Dixon and Chana lend further variety to local entries which number 284, exceeding last year's entry list by 100.

Judging in the floriculture department, with Mrs. Robert F. Johnston of Chana, Ill. awarding the ribbons, got underway early yesterday morning, and was completed by mid-afternoon. Premiums totalling \$141 were appropriated for this division of the show, superintendent by Miss Louisa Quick of Dixon.

Miss Marion Sympton, Lee county home advisor, is superintendent of the domestic arts department, where 90 division of exhibits, ranging from devil's food cake and divinity fudge to peach pickles, jellies, and aprons are on display. A home advisor from a neighboring county, Miss Margaret Jones of Bureau county, acted as judge.

Awards in the various departments, with first, second, and third prize-winners listed in order, were made as follows:

Floriculture Asters—Best display: Mrs. Leslie Coss, Mrs. Herman Alber, and Mrs. William Meyer. Corn flowers—Best display: Mrs. Ray Humphrey, Mrs. Herman Alber, Mrs. W. E. Bealer of Fenton, Ill. Cosmos—Best display: Mrs. William Meyer, Mrs. Herman Alber, Mrs. Ray Humphrey.

TO STAGE DRAMA

The Grand Detour Players, who are presenting their version of the comedy, "She Couldn't Marry Three" this week at Illinois hall, are announcing the suspense drama, "Dangerous Corner", as next week's attraction. The gripping psychological study is by the eminent English author and playwright, J. B. Priestly.

Finds Clothes on Installment Plan

Fifty years ago, in September 1891, the installment plan worked somewhat differently for a night watchman in Canton, Illinois, the Illinois Writers' Project W.P.A., reports. This arm of the law found clothes—on the installment plan.

A newspaper dispatch, dated September 25, 1891, reported that the watchman had found a pair of pants on the preceding Saturday night; on Monday night a coat on Tuesday night a hat, and was keeping his eyes peeled for a vest.

Dairy Cattle Class At County Fair is Largest in History

Judging Begins in The Livestock Departments Yesterday Afternoon

Dairy cattle, first of the livestock to be judged yesterday afternoon at the Lee County Fair & Horse Show, carried the largest entry list in the history of the ninth annual exposition, according to Charles E. Yale, superintendent of the department.

In the big canvas tents this year at the Assembly park grounds there are over 60 head of Holstein, most popular breed to be exhibited and the total head of dairy cattle is over the 100-mark.

Classes in sheep, swine, beef cattle and heavy horses were scheduled to be judged starting this morning.

In the sheep class this year there are several noted flocks on exhibit in the department, according to Superintendent L. V. Slothower. Among the famous breeders to exhibit is William Duncan of Wadsworth, Ill., former breeder for the herds at the Marlallabar farms at Libertyville. Mr. and Mrs. Peterson, a young couple from Chicago who gave up city life to become sheep raisers, are also among the exhibitors and have flocks from the Duncan herds on exhibit here.

In the dairy cattle class judged yesterday afternoon, John Brock of Woodstock was the judge. Premium winners in the dairy cattle and Junior Farmer classes are as follows:

Of the 22,000,000,000 gallons of gasoline consumed in 1940 by America's motor vehicles, 3,240,000,000 gallons, or 14.7 per cent, represented sheer waste from one major cause alone—failure to properly adjust the vehicle for fuel economy.

Accidents Kill More Young Than Diseases

Chicago—Accidents kill more persons between the ages of 3 and 24 years than does any disease! Between the ages of 3 and 38 accidents kill more males than any disease!

These facts are reported in the new edition of Accident Facts, the National Safety Council's annual statistical volume.

Among males of all ages, accidents kill a greater number than any disease except heart disease which is by far the most deadly, and cancer.

Among females of all ages, accidents kill a greater number than tuberculosis. However, five diseases top accidents as killers among the females—heart disease, cancer, cerebral hemorrhage, nephritis and pneumonia.

Legionnaires Seek To Avoid Fight on Convention Floor

Controversial Resolutions to Committee for Rewriting

Springfield, Ill., Aug. 23.—(AP)—Illinois World war veterans gathered here by the thousands for the 23rd annual state convention of the American Legion, temporarily delayed action today on controversial resolutions against aid to soviet Russia and favoring compulsory arbitration of labor disputes in defense plants.

Striving to avoid a fight over the defense issue on the convention hall floor, the resolutions and national defense committees sent resolutions indirectly criticizing the Roosevelt administration's policy toward the European war to a subcommittee for rewriting and postponed action until later, possibly at the closing session Monday.

The convention got into full swing today, with Senator C. Wayland Brooks scheduled to speak at a session in the flag-draped state armory this afternoon.

The torch light parade and grand promenade wreck of the 40 and 8, clowning fraternity of the Legion, was scheduled tonight as a prelude to the gala parade of the blue uniformed Legionnaires tomorrow past Governor Green in the reviewing stand.

None of the many resolutions submitted to the resolutions committee specifically endorsed President Roosevelt's policy of sending aid to nazi Germany's enemies and a stiff fight was predicted in the committee on proposals opposing aid to Russia and conveying food and munitions to Great Britain.

Proposals To Committee

A resolution drawn by State Senator Nicholas L. Hubbard, Mt. Pulaski Democrat, condemned all attempts to involve this nation in any foreign quarrels and criticized the use of governmental authority and money in propaganda to prevent the citizens from getting the true facts concerning both domestic and foreign policies.

Another resolution sent to the subcommittee, headed by George Sugarman of Chicago, calls for a referendum to determine sentiment toward the extend of American involvement in the European war.

Labor disputes in defense plants would be settled by arbitration of the National Mediation Board under resolution submitted by the Cook county Legion council. Also endorsed by the Cook county council was a resolution urging work camps for aliens similar to those established for conscientious draft objects.

Subject to the legislative committee were several resolutions deploring the general assembly's failure to appropriate funds to pay the Illinois reserve militia and urging immediate action to provide drill pay for the home guard.

Historic Opera To Be Given at New Glarus

Music lovers of northern Illinois will be interested in the presentation of Schiller's Wilhelm Tell, historic opera, which is to be given Sunday, Aug. 31 and Monday, Sept. 1 at New Glarus, Wis. Many from the vicinity of Dixon are planning to attend one of the performances.

Citizens of New Glarus in Green county will present the opera in costume Sunday afternoon at 1:30 in the Swiss language and Monday at the same hour it will be repeated in the English language. Roles are taken by citizens of New Glarus and surrounding country, farmers, cheesemakers, business men, pastors, housewives, grandmothers and grandchildren. Magnificent authentic costumes have been made by the women of the community.

Young lady ushers wearing authentic, colorful costumes of the 22 cantons of Switzerland, show the guests to their seats in the natural amphitheater located one mile east of the village, and entertain with lively Swiss folk dancing between acts. The popular New Glarus yodlers, heard often on the radio and known throughout the United States, participate in the week end celebration. The epic masterpiece of Schiller's depicts the unequal but successful struggle of the oppressed Swiss of the 14th century, for freedom from tyrannous Austrian dictators.

Price of a Panther Came High in 1832

An Illinois historical record recounts a ferocious battle that took place in Coles county in 1832 when a pack of dogs encountered a panther.

Two of the dogs were slashed to death before the hunter could fire. The combat was so furious that three bullets intended for the panther struck and killed the hunter's dogs. The wounded beast fought on after two shots had hit it. A third shot brought the panther to the ground, mortally wounded.

In all, according to the Illinois Writers' Project, W. P. A., 17 shots were fired and five dogs were killed.

Clown Entertains at Fair

Simon D. J. Collins, Hollywood greeter and professional clown, defies military regulations and "yoo-hoo's" the ladies attending the Lee County Fair and Horse Show which opened Friday at Assembly park to continue through tomorrow. Collins has appeared in many motion picture productions, appearing with many of the present-day stars of the stage and screen. He also entertained four presidents of the United States, the King and Queen of England and Siam and many others of note.

of Charles Ballard, with mortar board and long flowing gown served effectively as judge of this event and awarded prizes as follows:

Homeliest dog—Joan Jackson, Dixon; smallest dog—Donald Eugene Rhoades, Dixon; largest dog—Jane McCoy, Dixon; best dog—Dorla Mae Welch, Dixon.

Fred Holecamp of St. Louis, Mo., one of the country's outstanding owners and breeders of fancy ring stock, is judging this year's horse show. C. Guy Grimm, Chicago architect, who has officiated previously, is spending a three day vacation attending the fair. Lyle H. Prescott is ring master and L. V. Slothower, official announcer.

Afternoon's Show

In the first ring event on the opening afternoon, Miss Mary Louise Dysart of Franklin Grove with her snow white mount, Rex, won first place in the children's class and was awarded the trophy donated by Dr. C. R. Collins of this city. Miss Sarah Hasselberg was second in this event, Norman Smith, third and Charles Otto, fourth.

Bob Hedrick of Polo won first place in the adult horsemanship class, and in addition received the trophy cup donated by Mrs. Z. W. Moss and presented by Mrs. George F. Barrett, wife of the attorney general. Mrs. Charles Dickey, riding Sunshine was awarded a ribbon in this event.

The final event of the afternoon for riders under 12 years of age, was won by Norman Smith, riding Susie. He was also the recipient of the trophy presented by Miss Sally Prescott. Bennie Roe riding Boots, was second; Charles Lambert riding Margaret G., was third and Stanley Fish, astride of Scout, was fourth, all being from Dixon.

Free Attractions Fine

The featured free attractions at the fair this year are of outstanding merit. The Siegrist troupe of aerialists is one of the finest that has ever been presented in Dixon and the Haase children, acrobats from Janesville, Wis., proved very clever performers.

Another large crowd was present last evening and thoroughly enjoyed the excellent program. Following the parade of the thousands of dollars worth of fine livestock, the three gaited pleasure class was presented in the ring. First place and the trophy donated by Mr. and Mrs. Charles Dickey and presented by Miss Maxine McGinnis went to Orrin Tucker of Oswego. Miss Mary Louise Dysart of Franklin Grove was second in this event; Dorothy Denney of Aurora, third, and Quincy Adams of Dixon, fourth.

Miss Marjorie Lloyd of Winnetka won first place and the trophy donated by the Crombie Electric Service and presented by Miss Ruth Crombie in the children's driving class. Orrin Tucker of Oswego was second, Green Valley farms of Wheaton, third and Sue Bradley of Plano, fourth.

Tillie's Deney, driven by Miss Dorothy Denney of Aurora took first and won the trophy donated by Mrs. Sam Watson in the five gaited pleasure class. Robert Hedrick of Polo was second, Mrs. J. H. Backus of Aurora, third, and Mrs. Charles Dickey, fourth.

Stock Saddle Class

There were an even dozen entries in the stock saddle class which was one of the most interesting events of the evening program. The Roscoe ranch of Wheaton took first and the trophy presented and donated by Mrs. Grover Moss. Earl Dyche of Rockford won second, Mrs. Wagner of Aurora, third, and Charles "Buck" Lambert of Dixon, fourth.

Music for the opening day and this afternoon and evening was furnished by the Amboy township high school band under the direction of Jack Swartz, and the students are making a very creditable showing.

Last evening, L. V. Slothower presented awards to several Future Farmers of America winners in livestock projects in Lee county during the past year. In

briefly outlining the F. F. A. program in the county, the announcer stated that there are 225 members of the organization in the county. Last year this group developed live stock valued at \$23,870, crops of the value of \$4,365 and the various projects were valued at a total of \$28,235.35.

Melvin Brucker of Franklin Grove was granted the honor award for the development of his beef cattle project; William Thier of Amboy, second; Gerald Scherer of Franklin Grove, third. Ralph Salzman of Ashton was awarded the trophy for pure bred sheep, he having developed a herd of 64 pure bred Hampshire sheep. He has a record of having won more than 100 first places in his showings and more than \$700 in prize money. George Harms of Dixon was second for his herd of 38 Shropshire pure bred sheep, and Donald Schafer of Ashton, third.

Eight Harness Races at Ogle County's Fair

Program for the 88th annual Ogle county fair Aug. 30, 31 and Sept. 1 at Ogle, has been enlarged to indicate eight harness races with cash purses and a gold trophy to the winners.

The general horse show has been discontinued this year, but competition will be held Sunday afternoon, Aug. 31, in several divisions of saddle horses. Premium list for the fair has been revised to make it more attractive to livestock breeders and growers of farm products and is ready for distribution.

Three Running Races

In addition to the mile pace and trot harness races, the program will include three running races, a half mile, three fourths of a mile and a mile.

Free vaudeville acts will be presented each afternoon and evening. They include the Conley troupe of bareback riders, roller skating by the Whirling Aces and Miss Freida's animal circus consisting of performing ponies, dogs and monkeys.

Aerial Acts

As an added feature, Bob Fishers six Fearless Flyers will give an exhibition on the flying trapeze Sunday afternoon and evening, Aug. 31. This troupe which includes three men and three women has performed with some of the largest circuses in the country.

On Labor day, Sept. 1, the Hodgini brothers and sisters will perform an aerial act on rigging 100 feet in the air without nets or other safety devices.

Large exhibits of cattle, horses, swine, sheep, rabbits, rugs, quilts, weaving textiles and flowers will be on display all three days. Entertainment will also include carnival concessions, shows and rides. Bands will provide music.

To do away with supporting columns at the airplane entrances, a spacious hangar has been designed like an arch in reverse. Arched steel members spread in opposite directions from a center anchorage to form the roof.

The right headlights of automobiles are green in Argentina.

Sports Roundup

By HUGH S. FULLERTON, JR.

(Pinch-hitting for Eddie Brietz)

New York, Aug. 23—(The Special News Service)—The Lawn Tennis association is flying storm signals as the results of tales drifting down from the Newport Invitation tournament. One yarn is that the tournament chairman had to appeal to a sporting goods manufacturer to get the entries of some star players he wanted. Another is that a bunch of Californians held out on the national doubles championships, demanding that their expenses for the week should be paid by the Longwood club. The association won't act until somebody comes up with proof. If you think the football season is just starting, ask one of the guys who looks after ticket sales. Anybody who wants to buy one pasteborder for a single game at Minnesota hasn't a chance even this early in the season of landing anywhere but behind the goal posts. Washington may establish a new record for season-ticket sales, and all the other big colleges report a brisk demand.

Family Ties

When Springfield (Vt.) played Winchester (N.H.) the other day, the Winchester lineup showed the Hanna brothers and the Durling brothers (two of each) batting in order and 2, Jones succeeding his father, S. Jones, on the mound. S. Jones is "Sad Sam," the old major leaguer. Cy Pfirman, Jr., is following in his dad's footsteps as an umpire in the Cotton States league. Young Bob Grove, Old Man Moss's son, is a pitcher for the Fall River club of the New England league.

Today's Guest Star

Lynn C. Doye, Philadelphia Evening Bulletin: "The treasury announces that defense savings bonds are to be sold in all baseball parks. So far as the American league is concerned, the issue would be a sellout if the bonds were being sold for defense against the Yanks."

True Story

When the Aurelia (Ia.) semi-pro club went to play in the Denver Post tournament, they found a kid sitting on the curb by their hotel looking for a job as bathboy with an out-of-town team so he could see the games. They took him on and learned he had had eyes and no money for treatment. When the prize money was distributed every one of the Aurelia players kicked in part of his share and sent it to Jack Carberry, the Post sports ed., with instructions to take the kid to the best eye specialist in Denver and have him fixed up. Needless to say, Aurelia will play in the tournament next year.

Contributors' Corner

H. L. Woodbridge, a Lynchburg (Va.) fan, thinks the difference between Cincinnati being in first place and fourth is that Jimmy Wilson isn't there any more. Harold Farb of Houston reports that when pitcher Fred Martin pitched a one-hitter for the Houston Buffs last week, the guy who robbed him of a place in the hall of fame was a San Antonio infielder named Dillinger.

Public Housing Work

Hurt by Priorities

Chicago, Aug. 23—(AP)—The state housing board said today that priority trouble was threatening to halt or seriously impede work on unfinished public housing projects in downstate Illinois.

Chairman Oscar W. Rosenthal said that inability to obtain prompt delivery of steel was the chief difficulty. The board supervises construction of better living accommodations for low-income families, the projects being financed by federal funds.

Rosenthal said that because steel door frames were not available, work might be stopped on the Longview Place project in Decatur, which is designed to provide new homes for more than 400 families. Steel is widely called for in specifications for frameworks, concrete reinforcements, pipes and plumbing fixtures.

An additional \$607,000 has been allocated to Champaign for a housing project for more than 100 families, the housing board announced.

Local housing authorities have been organized in 23 Illinois communities, with some working directly with federal agencies in efforts to furnish homes in areas overcrowded by workers at defense plants.

How a Church Was

Built Back in 1832

Scarcity of building materials taxed the ingenuity of early settlers on the Illinois prairies. The Illinois Writers' Project, W.P.A., reports an account of the building of a church at Pleasant Prairie in Coles county which is illustrative.

In 1832 the pastor and 28 members of his congregation decided to donate labor and materials to subscriptions pledged from 2 to 12 days of work. One man promised 26 spikes and another, 30 bushels of lime.

The lime was unobtainable so the church was built without it and for two years remained without plastered walls. One day the pastor came upon a large deposit of lime rock on Indian creek. Logs were piled upon it and burned, leaving a residue of lime. This was mixed with sand from the creek and the pastor himself chinked and plastered the interior of the long church building.

A rear wheel blowout is much more dangerous than one in a front tire because the front wheels are easier to control. Inspect your tires.

To Erect Plant

At a recent meeting of the Black Hawk Co-operative Hybrid Corn association, the board of directors announced the purchase of a three acre tract of land from William Typer, located near the Brand school house. On this the association will erect a plant, which will consist of a drying room, more than 100 feet in length and a furnace room 20x23 feet in size. The contract price on this first unit built to handle about 127 acres of corn this fall, will be approximately \$7,500.

Officers of the Blackhawk firm are: President, Joe Brooks, Polo; vice president, John Fogel, Milledgeville; secretary-treasurer, Oscar Wragg, Pine Creek. At a meeting held in Polo, July 9. These officers were elected for a year and at that time an invitation was extended to them to locate in Polo.

Directors are: Mr. Brooks, Mr. Fogel, Lester Rothmerl of Polo; Elmer Yoemen, Dixon and Evan Rihan of Chadwick.

At present there are over 800 stockholders in the association. Polo was chosen as the location of the plant due to its central location and the activity of the Polo business men in assisting in securing the site.

As the acreage increases additional plant capacity will be needed and more buildings will be built. A new office building will be built next year. Employment will be provided for five or six men the first year, and as business increases more will be added, also an office staff. It is the intention of the board of directors to conduct the affairs of the association strictly upon sound business principles. They hope to make it a worthwhile addition to Polo and Ogle county.

News of the Churches

GEMS OF THOUGHT BENEVOLENCE

To feel much for others, and little for ourselves; to restrain our selfish, and exercise our benevolent affections, constitutes the perfection of human nature.

—Adam Smith.
Benevolent feeling ennobles the most trifling actions.

—Thackeray.
The place of charity, like that of God, is everywhere.

—Quarles.
Sweeter than the balm of Gilead, richer than the diamonds of Golconda, dear as the friendship of those we love, are justice, fraternity, and Christian charity.

—Mary Baker Eddy.
Do not wait for extraordinary circumstances to do good actions; try to use ordinary situations.

—Richter.
Charity is never lost; it may meet with ingratitude, or be of no service to those on whom it was bestowed, yet it ever does a work of beauty and grace upon the heart of the giver.

—Middleton.

Defense Priority Puts Burden On The Little Fellow

Somebody is Bound to Get Hurt in The Rush For Production

New York, Aug. 21—(The Special News Service)—A terrific recoil in the nation's industrial production for war and defense is lashing out at the little manufacturer and jobber who are not prepared to handle defense orders.

The pressure is increasing daily on the small fellows because raw materials must be funneled into channels producing defense materials. Somebody is bound to be hurt in the rush.

Planes, tanks, guns, ships and ammunition are more important to Uncle Sam right now than anything else, and that's why there are strangely contrasting stories of men being thrown out of jobs while general industrial production hits new high levels.

Manufacturers of essential defense materials have prior claim on the raw materials by government order. The little fellow using these materials can't join the prosperity parade without a defense contract.

Some Sub-Letting
The big industries are letting sub-contracts on some of the billions in defense orders, but industrial engineers estimate that only 35 per cent of defense production can be farmed out.

It is too early yet to say what the ultimate effect of the industrial dislocations will be, but a good many small producers have been able to dodge the pressure of defense priorities by converting their plants for defense production.

A notable example was at York, Pa., where foresighted industrialists surveyed the city's supply of skilled workmen and machinery and was able to utilize manpower and facilities for turning out defense orders.

For the most part, the big industries have been able to absorb the unemployed from smaller plants as their facilities were expanded, and so far there has been no great problem in men being thrown out of work.

For example, the steel industry was operating at only 19 1/2 per cent of capacity nine years ago when production was only 15,323,000 tons and 300,000 men were employed.

Today the steel plants are operating at 98 per cent of capacity and in the first six months of the current year more than 500,000 employees produced 40,912,000 tons of steel.

Talk of Unemployment
There is much talk in the automobile industry of unemployment because of curtailment of new models to conserve metals for defense purposes, but not even the manufacturers themselves know what the volume of production will be.

Science may be able to find substitutes for many of the materials now going into defense requirements and ease the pressure on small manufacturers.

The men of science offer one of the greatest paradoxes of a world at war, for they continually strive to devise new means of destruction, and then they must learn to destroy their own inventions or render them harmless.

Not all scientists are engrossed in the test tubes of death, of course, but science has been geared in the manner of industry for the job of defense.

One out of every four American physicists is doing scientific research on secret national defense work.

Washington, Aug. 23.—(AP)—A drastic 50 per cent curtailment appeared probable today in the production of 1942 model passenger automobiles.

Such a cut would mean an output of 2,148,500 units—the lowest since 1934—as compared with the 4,297,000 cars that rolled off the assemblylines in the last twelve months.

Defense officials made their forecast of the reduction Thursday in announcing that production during August, September, October and November—the first four-months of 1942 model year—would be slashed 26 1/2 per cent. A larger curtailment is expected in the subsequent months.

The reduction was ordered to conserve scarce materials for the arms program. Officials announced that the industry had altered designs to save aluminum and zinc from trimmings and other ornamental parts of the cars.

While passenger car production will decline, officials said the output of trucks must be increased for defense needs and this was expected to minimize unemployment in the industry. About 1,189,000 trucks will be needed in the new model year, it was said. The last model year's total was about 200,000 units below that figure.

SUNDAY SCHOOL LESSON SACRIFICES OF PRIMITIVE CHRISTIANS REPEATED TODAY IN EUROPEAN WAR

Text: Hebrews 9:11-22
By WILLIAM E. GILROY, D. D.
Editor of Advance

The early Christian writers had the task of explaining the new Christian faith in relation to the religion in which many of the disciples had been brought up. In the thought of Paul and other Christian writers, there was no breach between Judaism and Christianity. They thought of their Christian experience as a fulfillment of the faith and practice to which they had been accustomed.

Deep in this former faith and practice had been the emphasis upon blood sacrifice. It was part of the Jewish ritual. The doorposts of Jewish homes, when the avenging hand had smitten the Egyptians, were marked by blood save the faithful. In common with almost all religions, the conception of blood sacrifice and blood covenant played an essential part.

Then came the sacrifice of Christ upon the cross, and the Christian teaching relating this sacrifice to the Jewish ritual and practice. This in the Christian thought marked a new covenant. The salvation of men was no longer to be won, or their sins purged, by the shedding of the blood of goats and bulls and the sprinkling of the ashes of a heifer. Salvation was rather through the sacrifice of Christ.

This is a lesson of mystery which it is not easy either to understand or to explain. Perhaps

we are unwise to attempt too exact an explanation, and we might do better to turn to practical illustrations.

We see surely in our world today how the innocent suffer for the guilty, and how inevitable it is that some men should suffer and die for their country, their homes, and the laws and institutions that they value are to be preserved. The war has not come to our own shores, but we see in many lands how the maintenance of democracy and freedom is inevitably bound up with suffering and sacrifice.

The Christian teaching is not that Jesus is a sacrifice to an angry God, bearing a penalty that enables others to go free. There was something of that in the Jewish conception, and in their idea of the scapegoat, but if one reads carefully the New Testament, he will see that the real emphasis was upon the fact that even on the cross "God was in Christ, reconciling the world unto Himself."

A great theologian has said, "What Christ is on the cross, God eternally is." We ought to interpret all conception of blood sacrifice in religion in terms of that statement.

The idea of Christianity and the New Testament is that for our salvation no sacrifice is needed but that of a sincere and contrite heart. God is not to be appeased. He is Himself through Christ, the appeaser, inviting us to receive His grace and accept the sacrifice made through love.

New U. S. Bomber
Is Tried Out for
First Time Friday

With Army in Arkansas, Aug. 23.—(AP)—The army's new Douglas dive bomber, which air officers claim will out-perform the dreaded German Stuka, was used in a coordinated attack with ground forces for the first time Friday.

Sweeping along a 16-mile front in three separate assaults starting at dawn, the squat-bodied planes plummeted from the sky repeatedly toward token enemy troops deploying over the rolling, heavily-wooded terrain. Pretending to drop bombs when their machines came within a few hundred feet of the ground, they immediately roared upward two or three thousand feet to get set for another dive.

Although the squadron of bombers had simulated attacks on the 70,000 men of seventh army corps daily this week, this was the first time their actions had been directed through radio communications with troops on the ground.

Newest in Bombing
The Douglas A-24's are the newest in compact bombing aviation. Acquired by the army from the navy, they fly on the level at more than 300 miles an hour and are equipped with wing slots to reduce speed to about 250 M. P. H. In the dive earthward, adding special accuracy to their performance. As in the Stuka, the Douglas is aimed at the target and pulled skyward the moment its bombs are released.

Manned by a crew of two, the light, low-winged bomber can carry one 1,100-pound or two 300 pound bombs.

In one attack, the bombers coordinated their action with that of the 33rd Division (Illinois), to the north of the practice defense position taken by seventh corps between the towns of Blevins and Washington.

DIXON'S PLAYGROUNDS CLOSE

Ending a successful season of supervised recreation, the Dixon playgrounds closed yesterday. Each summer, the Dixon Park District has provided recreational advantages for the younger people of Dixon with the purpose of inspiring the lessons of clean play and exercise. The last day was spent in an all-day picnic at Lowell park and on Thursday L. G. Rorer treated the children to a free matinee at one of the local moving picture theatres. The supervision of the playgrounds this year was under the competent staff headed by Miss Mary Trombly with John Jensen, Jr. as her assistant director. Others on the staff who worked to make it a success were Lorraine Giannoni, Betty Reilly, Sylvia Heckman and Jane Goff. The staff and park district have expressed their gratitude for the co-operation of the Dixon merchants and other organizations which have contributed to the summer program.

TENNIS TOURNAMENT FINAL TOMORROW

Finals in the Dixon singles tennis tournament will be played tomorrow afternoon at the high school courts—and from where we are peering, it looks like a smashing success. Last night George Covert, many-time champion, defeated Haskel Hall with set scores of 6-3 and 6-3 and will now meet the winners of the Kearney-Joslyn match. Charles Kearney yesterday defeated Phil Rielly with a three-set match and scores of 7-9, 6-3 and 6-2. Ward Smith, defending champion, defeated Harold Peterson, 6-2 and 6-3. Alan Wieman, who meets Smith this afternoon, defeated Robert McNamera, 6-3, 4-6 and 6-4 in the best tournament match thus far. Finals tomorrow will start at 1:45 p. m.

WILBUR WINS ON 20th HOLE

In a Country club Class A tournament match which had everyone (including the caddies) bushed before it was ended, Ray Wilbur yesterday afternoon defeated Don Raymond, 1 up at the end of 20 holes. Wilbur had a chance to win on the 17th, 18th and 19th holes but missed eight-foot putts on the first of that three and an easy one on the 19th. Scores for the match were: Wilbur: Out—534 644 455—40; In—536 355 455—41 for 81. On the 19th he counted a 5 and took a three on No. 20. Raymond's score: Out—645 445 544—41; In—446 425 553—39 for 80. On the 19th Don counted 5 and took four on No. 20.

WHIRLY FAVORED IN RACE TODAY

Chicago, Aug. 23.—(AP)—The end of the rainbow was at the finish line of Washington Park's American Derby today, and Chicago race-goers have tagged the \$25,000 pot of gold for Whirlaway.

Six horses were named overnight to race Whirlaway at a mile and a quarter for the first place money, but the suspicion prevailed that the other 3-year-olds were angling for the lesser nuggets awaiting the second, third and fourth place winners. The 31st running of the event had a gross value of \$62,500 with all seven starting, \$46,575 going to the winner.

Whirlaway was expected to be backed down in the betting to 1 to 5 by post time, about 4:15 p. m. (CST), making him the strongest favorite ever to run in the fixture.

A forecast of fair weather pointed toward a fast track and a heavy turnout of turf followers for the historic race.

Others entered were Bushwhacker, Daily Trouble, Delray, To-A-Tee, Valinda Dude and Harry Pilot. Bushwhacker was considered the horse with the best chance of upsetting Whirlaway.

DETROIT TRAPSHOOTER WINS IN NATIONAL TOURNAMENT

Vandalia, O., Aug. 23.—(AP)—A 32-year-old novice trapshooter, Walter Lee Tulburt of Detroit, Mich., ruled the clay target sport today after beating a field of 1093, second largest in the history, in the 42nd Annual Grand American handicap.

Using a second-hand \$40 pump gun which he bought to shoot ducks, the motor city entrant broke 99 of 100 yesterday in the clay target classic to the Del Bundschuh, 28-year-old Fremont, O. machinist. In a shoot-off featured by the nervousness of each finalist, Tulburt won by breaking 23 of 25, while his younger foe was getting 22.

The two unknowns received about \$1500 each for their performance.

New Champ Is Novice

The new champion, although a high-ranking skeet shot, has been shooting over traps only a month or two. His best score until he blasted all but the 98th in yesterday's string, was 89.

The women's championship went to Miss W. Marie Hill, 29, of Kansas City, who won this year's Missouri State shoot, winning the title with 91 of 100. In the championship of champions race she boosted her score to 95. Yesterday, firing her first handicap event, she broke 96, the best count of her career.

Halas Brews More Trouble for 1941 Grid Opponents

Chicago, Aug. 23.—(AP)—George Halas, owner and coach of the champion Chicago Bears, who staggered the national pro football league last season with the "T" formation, is brewing another kettle of trouble for his rivals.

Tom Harmon, Michigan's great halfback who set a new all-time scoring record in his three years in the Big Ten, revealed yesterday he had an appointment to talk contract with Halas. Heretofore, Harmon has shied the pro game.

Harmon is training with the College All-Stars who will meet the Bears in Soldier Field Thursday.

Halas is busy at Delafield, Wis., tutoring his Bears on how to stop Harmon and his collegiate cohorts.

With the true pessimism of a coach, Halas expressed doubt about being able to sign Harmon and said he wasn't going to talk about his place in the Bear lineup until he had a contract tucked away in the safe. Sidewalk coaches nominated the Michigan ace for a Bear fullback.

What Halas might do with another fullback is almost as big a question as whether he can sign Harmon. Already the Bears have Bill Osmanski and Gary Famiglietti. And after the All-Star game, Norman Standlee, fullback for Stanford's Rose Bowl champions last season and well grounded in the "T" formation will join the Bears.

But Harmon is a driving runner, well suited for quick-opening plays and could add a note of deception because he is a better than average passer.

Harmon has signed a contract with a Detroit radio station to broadcast Michigan games this fall but he said this would not interfere with professional football. Halas picked up first rights to negotiate with Harmon at the pro football draft last winter.

BOBBY JONES RETURNS TO GOLF WARS IN AMERICAN RYDER CUP TOURNAMENT

Detroit, Aug. 23.—(AP)—For the first time in his fabulous career, Bobby Jones was bracketed in match play with the nation's foremost professional golfers as his challengers today began a two-day battle with the American Ryder Cup team.

Jones, who before he retired a decade ago, had frequently met and defeated the top-salaried stars in medal play, was in a new role as he paired with Gene Sarazen in a Dutch foursome match against Byron Nelson and Harold (Jug) McSpaden. Tomorrow Bobby will meet a pro yet to be named in an individual match.

Dixon All-Stars Lose To Mendota By One Run Last Night

CITY SERIES SCHEDULE
Monday
United Cigar vs. Reynolds.
Borden vs. Three Deuces.
Wednesday
Bordens vs. United Cigars.
Reynolds vs. Three Deuces.
Friday
Bordens vs. Reynolds.
Three Deuces vs. United Cigars.

In baseball—soft or hard—there's nothing that pays off like a home run and last night at the Airport ball yard the Dixon All-Stars made their debut with a 15 to 12 loss to Mendota when the visitors collected three non-stop flights around the base paths.

In the opening game last night the Dixon One-Stop girls' team softened the blow to local pride when they rapped out a 9 to 7 triumph over the Ohio maidens.

And among the other big news to come out of the local park last night was the announcement by Harry Quinn, president of the local league, that the circuit's play off city series would begin Monday night. At the conclusion of the regular season the Reynolds wire won the race with 11 victories in 13 games.

In the Dixon girls' victory last night Ethel Atkinson and Hilliard did the pitching and allowed the visitors 12 hits in seven innings. Losing moulder was Meyer. Heavy hitter of the game was Paden of Ohio who had a perfect night with three singles and a triple.

Lehman, McWethy, Knight, Shumaker and Atkinson each got two hits for the winners.

Thrilling Nightcap Game

The thrilling nightcap game found the Mendota Chatterbox team, leaders of their city league, taking the scoring lead with three runs in the first frame, one a home run by Edwards.

The Dixon All-Stars collected two runs in the second inning on singles by Welty and Krug and two errors by the visitors. Two more runs scored for Mendota in the third on two singles and three errors.

The All-Stars tied the score at five-all at the end of the third when Carlson walked, scored on a triple by Miller, Welty singled and scored later on Krug's hit.

Dixon took the lead in the fifth inning with three runs when Spindlen and Carlson were walked and scored on Miller's second triple. The latter tagged on a single by Welty.

Two walks on Lafferty's home run gave the visitors three runs in the sixth and in the last of the same frame the locals scored one run when Windmiller singled, advanced on a walk and scored after a drive out to rightfield by Deets.

Edwards got his second home run of the game for Mendota in the seventh to score one runner ahead of him. Later in the same chapter Spender walked and scored on Whitmore's hit.

All-Stars Stage Rally

A walk, hit and an error gave Mendota another run in the eighth, the last scored by the rivals. In the last of the ninth the All-Stars staged a rally which nearly gave them victory. Littrell walked and scored on Spinden's double. Carlson singled and came home on a double by Miller, the All-Stars' heaviest hitter. All this happened after one was out and the next two went down whiffing to end the threat.

Winning pitcher was Thompson who allowed 11 hits, walked seven and struck out 13. Deets hurled eight innings for the Dixon team and allowed 12 hits, walked five and struck out eight. Fordham finished the game and allowed one hit and fanned two.

Feldkirchner to Play in Finals Of Golf Tourney

Class A golfers are calling. "Quick, Henry, the Flit"—for there's a skeeter running around Plum Hollow's hills and dales that has a deadly sting. He's Robert (Skeeter) Feldkirchner who yesterday advanced to the finals of the club's current tournament with a 1 up victory over Babe Martin. Feldkirchner will now meet the winner of the Emerson Rorer-Ed Worley match for the championship.

In case that Fred Reis, another Class A player, is able to compete, Skeeter may meet the winner of the Worley-Reis match. Early in the week Fred suffered an injury to his hand and isn't likely to be able to play in the rest of the tournament.

Scores of the Feldkirchner-Martin match were as follows:

Feldkirchner . . . 554 545 453—40	Feldkirchner . . . 445 445 444—38
Martin 534 634 544—38	Martin 544 445 554—40

Each played brilliant golf in the close match and came out with 78 each. Feldkirchner had birdies on the sixteenth and seventeenth holes when he had two over par for the return nine. Martin counted two over par on his outgoing stretch.

In Class B competition yesterday Harold Rorer defeated "Spud" Ryan, 2 up, and the winner will now meet Elwin Wadsworth for match play next week. Rorer counted an 88 against Ryan's 90 and the winner had 12 fives in the 18-hole round. Their scores were as follows:

OUT	IN
Ryan 455 465 674—46	Ryan 455 555 654—44
Rorer 555 555 565—46	Rorer 444 565 554—42

The finishing nine of the Meeks-Martin Class B match was postponed until early next week.

In Class C Mark Smith eliminated Don Bowers, 2 up. Their scores:

OUT	IN
Smith 365 554 663—43	Smith 455 655 653—44
Bowers 454 564 655—44	Bowers 456 564 664—46

Matches to be played this morning were: Francis Duffy vs. W. J. McMullen and Ernie Swan vs. Charles Cramer.

YANKS LOSE 3rd STRAIGHT GAME

By GAYLE TALBOT

Associated Press Sports Writer

It has been suspected all season that the Yankees consist of Joe DiMaggio and a bunch of other ball players, and the things that have been happening to Joe McCarthy's club since DiMaggio turned his ankle Tuesday in Detroit only point up the fact.

Without their big puncher, the Yankees have lost three straight games, making only two scratch hits in one game and submitting rather meekly in the pinches. When Jim Bagby of the Cleveland Indians checked them yesterday, 5 to 4, it was almost too much.

Luckily for the New Yorkers, their lead is ridiculously long, so the temporary absence of DiMaggio is nothing to worry about.

Cost Them Nothing

Their past two losses cost the Yankees nothing in the standing, for the Chicago White Sox cooled off abruptly and dropped two straight to Boston, yesterday by a score of 2-1. Joe Dobson held the runners-up to six hits, and the Red Sox thereby climbed within a game and a half of second place.

At Detroit, Barney McCosky came to bat with two out and two mates on base in the last of the ninth inning and cracked a very satisfying homerun. The blow climaxed a five-run last-ditch rally that licked Washington, 5-4, and handed Alex Carrasquel his first defeat in seven starts.

Frankie Hayes clouted a seventh-inning homer as the Athletics nosed out the St. Louis Browns, 5-4.

Brooklyn's game and a half lead over the St. Louis Cards in the National League remained unchanged as both won yesterday and moved a notch nearer their breathlessly-awaited clash tomorrow at Ebbets Field.

Defeat Cubs Easily

The Dodgers scored an easy one over the Chicago Cubs, 8 to 5, pounding out five runs off Paul Erickson in the first two innings, but the crippled Cardinals had a struggle to overcome the Phillies, 4 to 2, in 10 innings. Herman Triplett, reserve outfielder, settled in with a homer in the extra frame with a mate on base. Lon Warneke went the distance for the Cards, allowing seven hits.

Cincinnati's headlong dash toward the top was halted by Jim Tobin of the Boston Braves, who set the world champions down 9-1, with the aid of some lusty hitting by Max West. It was the second loss in 13 games for the Reds.

Pittsburgh ganged Bob Bowman for three runs in the eighth, including a homer by Maurice Van Robays to down the collapsible Giants, 5-3.

Reception Tuesday Evening

Members and friends of the congregation of the Methodist church will honor the new pastor of the church, Rev. Timothy Reeves and family at a reception Tuesday evening at 7:30 o'clock in the church. A short program is being prepared by the committee. Short talks, congregational singing and pipe organ music will be the main feature.

The Rev. Reeves, who succeeds the Rev. Ralph M. Dreger comes here to the local church and in Ashton churches from the Oklahoma Methodist conference. Everyone is invited to attend the reception.

Pick Festival Queen

A queen and two attendants will be chosen on the last night of the annual fall festival to be held here on September 1, 2, and 3. The trio will represent Franklin Grove in a contest at Dixon on September 15 when a queen of the Rock River valley will be chosen. Winner of the Dixon contest will receive a trip to Hollywood. Entries blanks may be found in the Dixon Telegraph and Franklin Reporter.

Thimble Club Meeting

The Thimble Club held their August meeting Wednesday afternoon with Mrs. Homer Shriver, Mrs. Ean Miller was assistant hostess. About thirty-five were present to enjoy the afternoon of social visiting. The business was presided over by the president, Mrs. Glean Naylor. At the close of the afternoon lovely refreshments were served. The September meeting will be held with Mrs. Earl Morris.

Attended Institute

Among those from here who attended the Teacher's Institute in Dixon Wednesday were: Mrs. Earl Fish, Mrs. Glenn Wagner, Misses Eunice Miller, Anna Sanders, Jeannette Meyers, and Alice Helmershausen.

Assigned Fort Knox

Rev. F. Louis Grafton, who for the past 4 1/2 years has served as pastor of the Presbyterian churches in Franklin Grove and Ashton, and now a First Lieutenant in the Chaplain Reserves of the United States Army has been ordered to the Fifth Armored Division at Fort Knox, Kentucky, on or about the 2nd of September.

Mrs. Grafton will not accompany her husband at present, dividing her time here and with her mother in Peru until such time as Lieut. Grafton can find adequate quarters at the post. It is expected that he will leave soon after arriving at the fort for the Second Army maneuvers which are taking place in Alabama.

Chaplain duties will include Sunday chapel service, social work, hospital and guard house visitation, funerals and convey duty. Fort Knox soldier population is 83,000.

It is with sincere regret that the friends of Rev. and Mrs. Grafton see them leave our midst. They have done splendid work in the local church here with the young people. But every one will wish for them contentment in their new venture.

Married Tuesday

Miss Mildred Unger, daughter of Mr. and Mrs. Martin Unger of this place, and William Brickie of Ashton were united in marriage Tuesday morning at Hannibal, Missouri, the ceremony being read by Rev. John Golden, pastor of the Christian church at Hannibal. The bride was attired in a blue crepe street-length dress and the groom wore a dark blue business suit. They were unattended. Mrs. Brickie has been employed the

past year in the William Hart home in Ashton. Mr. Brickie operates a feed grinding mill in the Ashton community. They will reside in Ashton where the best wishes of their friends will be with them.

Auto Trip

Mr. and Mrs. Arthur Schafer and family of this place and her parents, Mr. and Mrs. Ed Schick of Dixon have returned from an auto trip to Minnesota and North Dakota where they visited Mr. Schick's brothers and families.

Attended Convention

Harry Schafer and his sisters, Misses Cora and Dorothy joined with a group of young folks from Ashton and went for a trip by train to Greeley, Colo. where they will attend a Luther League convention.

Here from Wyoming

Mr. and Mrs. Grover Lott and son of Sheridan, Wyo. came Monday afternoon for a two week's visit in the home of his parents. Mr. and Mrs. Will Lott and other relatives. Grover is a former Franklin Grove resident and has many friends here who will be glad to greet him. It has been about ten years since he was here.

Was Arrested

Charles Ward of this place, a tavern owner was arrested Monday night by Sheriff G. P. Finch following an automobile accident on the Lincoln Highway. John Yetter of Steward filed a complaint in Lee County court and ward was arraigned before Judge Grover Gehant on a charge of operating an automobile while in an intoxicated condition. He was assessed a fine of \$100 and cost his license revoked for a period of one year and committed to the county jail until the fine and costs are paid.

Attended Meeting

Supervisor Elmer Miller took a bus load of people from Amboy and Dixon to Mt. Morris Sunday where the Townsend club of the thirteenth district of Illinois assembled to hear an address by Mr. Bainbridge, editor of the Townsend Weekly. In spite of the showers, there was a very large attendance and a good meeting reported.

Gone South

Supt. and Mrs. Leland Hanson of Leaf River left Friday morning for an auto trip through Tennessee, Virginia and Kentucky and other southern states. The Hansons are former residents of this place and their friends will be pleased to learn of their trip.

Died in California

Miss Clara Lahman received a letter recently from Mrs. Ralph Dreger in which she wrote the Rev. Henry Frost of California who was treasurer of the Methodist conference of which Rev. Dreger is a member had died during the month of July. Rev. Frost's wife will be remembered as Mary Tuttle, daughter of the late W. W. Tuttle, a former principal of the high school. Mrs. Frost has many friends in this community who will regret to learn of her sadness and will extend sympathy.

Aid Society Meeting

The Ladies Aid Society of the Lutheran church held their August meeting with Mrs. Geraldine Duden. The meeting was opened by all singing a hymn after which the pastor of the church, Rev. Henke read the scripture lesson and led in prayer. The study for the afternoon was "Missionaries of the Lutheran church in South America." The business meeting was presided over by the president, Mrs. Helen Schafer. Plans were made for a group meeting of the Lutheran Missionary society of this ministerial district which is composed of all the surrounding towns. The meeting will be held here in the Kersten Gym September 16. During the afternoon refreshments were enjoyed. Before going to their homes the ladies called at the home of Mr. and Mrs. Herman Blank in honor of Mrs. Blank, who was celebrating

her birthday anniversary. They sang several hymns for the elderly lady which were greatly appreciated. The next meeting of the society will be with Mrs. Ed Blank near Ashton.

In Chicago Tuesday

Mr. and Mrs. Maurice Kemp, Miss Dorothy Persels and Gerald Meyers of Cumberland, Iowa, Russell Group and Miss June Hatch of this place motored to Chicago Tuesday where they spent the day sight seeing. In Chicago they were joined by Mr. and Mrs. Kenneth Hood of Woodstock.

Beg Your Pardon

The name of Mrs. Blanche Mong was omitted from the ladies who attended the surprise birthday party for Mrs. Mary Watson recently. We beg your pardon.

ABOUT GOLDFISH

All about exaggerated forms of goldfish have been derived from one form. They breed true for a time, but gradually revert to their original type. The fancy breeds are results of man's interference with nature.

LONG FENCES

The rabbit fences of South Australia built to prevent total crop destruction, are long enough to extend around the world.

Recreation, a part of the general study of "My Town" which is being taken up by the W. C. T. U. everywhere this year. Roll call will be "What my town means to me", and each one is urged to bring a contribution to this part of the program.

Plans will be completed for the County W. C. T. U. convention which is to be held here on September 23 in the Brethren church. The complete program will be published later.

Insubordination of Unruly Soldier Is Revealed in Digest

For Bragg, N. C., Aug. 23.—(AP) The public relations office at Fort Bragg in a digest of the court-martial of Pvt. John Habinyak, New York selectee, who was sentenced to 10 years and nine months in a federal penitentiary for insubordination, quoted Habinyak as saying that he formerly received wages of \$10 a day and that he would not work for \$21 a month. The digest approved by, Col. Charles B. Elliott, post commander, and Major S. E. Murrell, judge advocate at Fort Bragg.

Major Murrell said that except for Habinyak's attitude, the five offenses upon which he was convicted, would have been considered minor, but that he continually refused to obey orders. Habinyak, who was sentenced to serve his time in the federal penitentiary at Atlanta at hard labor was not allowed to talk to newspaper men. Col. Elliott ordered military police to see that the 26-year-old selectee, who was inducted into the service, June 23, was not molested.

Demanding Spittoons

The digest said that Habinyak, who worked as a coal miner at Central City, Pa., came to Fort Bragg on July 3. One day after he arrived he spat on the floor of the mess hall and refused to clean it up then ordered to do so by the mess sergeant. He was quoted as telling the sergeant that they should have spittoons and "I am not going to work for nobody".

First Lieut. Leo J. Kraus, battery commander was called in and explained to Habinyak the seriousness involved in not obeying orders, the digest said. "When I have to spit, I am going to spit and it does not make any difference where I am", he said. The digest continued with this report in substance:

He said that the army would have to furnish him with spittoons if he stayed there.

Wouldn't Clean Mess Kit

Lieut. Kraus sent Habinyak to the regimental guard house, after he had been there awhile the lieutenant, noting Habinyak's mess kit dirty, told him that he would have to clean it before he ate. He offered to bet Lieut. Kraus \$5 that he would never see him clean the mess kit.

Lieut. Kraus, finding Rubbish around Habinyak's bed, told him to clean it up, Habinyak refused. Lieut. Kraus then referred the matter to Lieut. Col. Lowell F. Bowers, regimental executive.

Bowers visited him in the guard house, explained the seriousness of not obeying orders and told Habinyak he could be sentenced for 20 years. This had no effect.

GHOST TREE

The curious Chile pine, a ghost tree from out of the ages before man now is to be found in many sections of the world, having been transplanted in numerous formal gardens because of its unusual appearance.

PECULIAR FEET

Chimney swifts cannot perch on twigs and wires as other birds do. Their feet are of such peculiar construction that they are able to perch only on vertical surfaces.

Second largest market for the American cotton crop is the auto tire industry, with the textile industry ranking first.

He Didn't Get The Job . . .

He was a bright young man and had the experience required for the opening. But the boss was rather "old fashioned." At least that's what the boy said after the interview.

"Let's see your savings passbook," was the first request the employer made of the likely looking applicant.

"Why, I never had one," was the embarrassed reply. He lost that job, but gained a valuable lesson. Now he has a growing savings account and a better job than he had hoped for.
